

Tri-County Veterinary Service Anesthesia/Surgery/Treatment Consent Form (Online)

Client Name:
Patient:
DOB:

Please Read Carefully and Sign

I authorize Tri-County Veterinary Service to perform the following procedure(s):

IV Catheterization is required for all surgical procedures. Pre-Anesthetic Testing (required for pets 8 years or older)

In order to ensure that your pet can properly process and eliminate the anesthesia he/she is given, we always recommend a well-animal pre-op blood profile.

(\$112) We offer a full Pre-Op panel that shows function of kidneys, liver, hydration, red cell levels (anemia), blood sugar (diabetes), platelets for blood clotting, and infection.

In-Patient Questionnaire

(Pets that are overdue for vaccines are required to be made current during time of hospitalization)

To lessen the risks of anesthesia/surgical procedures all dogs over the age of 6 months must be current on heartworm testing.

While your pet is under our care please consider having these tests or procedures performed.

AUTHORIZATION

I verify I am the owner (or Authorized agent for the owner) of the above named pet and authorize the above procedure to be performed. **I authorize the use of anesthesia and other medications as deemed necessary by the veterinarian and staff at TCVS.**

I have been advised as to the nature of this procedure to be performed and the risks involved. I understand also that there is always a risk associated with any anesthesia episode, even in apparently healthy animals and have discussed my concerns with the veterinarian. **There will be additional fees for pets that are pregnant, in heat, obese, or cryptorchid. I agree to be responsible for any charges incurred while my pet is in the care of this facility and understand payment is due at the time my pet is released from the hospital.**
